Editorial Guidelines

The 2024 NCNU Campus Sustainability Report (hereinafter referred to as “this report”) was the 3rd Campus Sustainability Report, CSR. NCNU 「Environmental Protection and Occupational Safety and Health Center」 collected and edited this report in accordance with the UN’ s Sustainable Development Goals (SDGs). This report has explored the significance of the impacts for both actual and potential on the environment, economy, and people (including human rights) in terms of sustainability at NCNU, which could be a useful reference for the public viewers after related performance disclosure.

Reporting period and issuance

The scope of this report disclosed the data and information from Aug. 1, 2023~Janu. 31, 2024 to Janu.1~Dec. 31, 2024. Some contents included information prior to Aug. 1, 23.

NCNU Campus Sustainability Report published regularly.

Previous edition: published in July, 24.

Current edition: published in July, 25.

Next edition: est. publish in July, 26.

Report boundary and scope

NCNU was the main subject in the scope of content information of this report.

Writing basis

This report was core option edited based on the Global Reporting Initiative, GRI criteria as well as responded to UN’ s “Sustainable Development Goals (SDGs)” and disclosed practices, to compile the 3rd NCNU Campus Sustainability Report.

Restatement of information

The university's 2024 report contains no restatement of information.

Management approach

◎ Internal management

NCNU Sustainable Campus Report Team has provided the rough draft of this report. The accuracy and the integrity of the information and the data were viewed via supervisors from various units. Furthermore, the Environmental Protection and Occupational Safety and Health Center collected and edited this report as confirmed by the president before issuance.

◎ External certifications

NCNU engaged Ernst & Young to perform limited assurance on selected information in this report, in terms of ROC Accounting Research and Development Foundation’ s Assurance Standards No. 3,000 「assurance engagements other than audits or reviews of historical financial information.」 See Appendix OO of this report for further details.

"To be responsible for our future by fulfilling society's needs"

Situated in the culturally rich and literarily vibrant Puli Township, Nantou County, NCNU became a pivotal center of knowledge, leading the development of the Shui Sha Lian region after the diligent efforts of its successive presidents. The critical challenge remained to stand firm and forge ahead for maintaining the success. To this end, NCNU positioned itself as a comprehensive university with both international perspective and local implementation, in order to become a distinguished and sustainable international university.

NCNU prioritized sustainability by having solar installations with a capacity of 8,640 kWp to aim for a net zero emissions campus by 2043. Over 60 full-time instructors practiced locally across five colleges with an average of 36 courses and over 1,000 students in related local practice each year. These efforts had been recognized with the National Sustainable Development Awards from the Executive Yuan and the Environmental Education Facility Accreditation from the Ministry of Environment. Additionally, NCNU received a total of NT\$93.16 million from the Ministry of Education's Higher Education SPROUT Project. This was a 13.2% increase, which was the highest subsidy among domestic public mid-sized universities since last year.

As a result, NCNU had been ranked 118th from The World University Ranking for Innovation (WURI) in 2024.

Confronting the challenges in the higher education environment, NCNU was poised to benefit from its strategic guidelines on refined culture, sustainable operation, and international perspective as approached its 30th anniversary. Pursued innovations and broke boundaries after maintaining a dynamic balance between globalization and localization, to implement "international thinking with local practice," NCNU aimed to cultivate future leaders endowed with global vision and social responsibility.

Asia-Pacific Sustainability Action Awards_ Golden Award in 2024

《TAISE》

APSAA & TSAA Awards Ceremony in 2024

Honored with the Asia-Pacific **Sustainability Action Awards, Golden Award** in 2024, NCNU's "Green Shui Sha Lian Sustainable Value and Talents Development Program," demonstrating its outstanding achievements in the field of University Social Responsibility (USR). Ministry of Education recognized this program as a role model for USR in Taiwan, which marked a major breakthrough in promoting sustainable development and local revitalization.

Taiwan University Sustainability Awards in 2024

Received the "Taiwan University Sustainability Awards, Golden Award of Sustainability Reporting in 2024" from former Minister of Education.

NCNU received Taiwan University Sustainability Awards in 2024 for its outstanding performance in sustainable development. The remarkable achievements from individual category of Golden Award of Sustainability Reporting in 2024 included environmental sustainability, social responsibility, and governance of institutional research. Notably, innovative initiatives, such as solar power installations and smart transportation solutions helped to build low carbon campus successfully toward the goal of net zero emissions by 2043.

Introduction of low carbon transportation solutions on campus in 2024

Introduced the e-scooter as a new green mobility solution in 2024, not only provided faculty and students with a more convenient mode of transportation but also reduced carbon emission from motorcycles. This achieved a more friendly campus mobility ecosystem by encouraging the use of e-scooters on campus and public transportation off campus.

Supporting the basis for Sustainable Development of University Social Responsibility (USR)

Center for Institutional Research provided fully analytical data support for assisting the fulfillment of social responsibility and achievement of Sustainable Development Goals (SDGs). Below was the concrete results of strengthening quality of education and promoting decision-making of institutional affairs after data analysis:

Core business outcomes

① Research Reporting System

Released subject-based research reports on a quarterly basis, covering the aspects of institutional research development, faculty teaching, and student learning then summarized them annually with comprehensive analyses and recommendations. As a result, identified areas for improvement then proposed innovative solutions to ensure long-term sustainability. Reports not only supported decision-making on campus but also directly implemented University Social Responsibility (USR) objectives.

② Promoting transparency of information

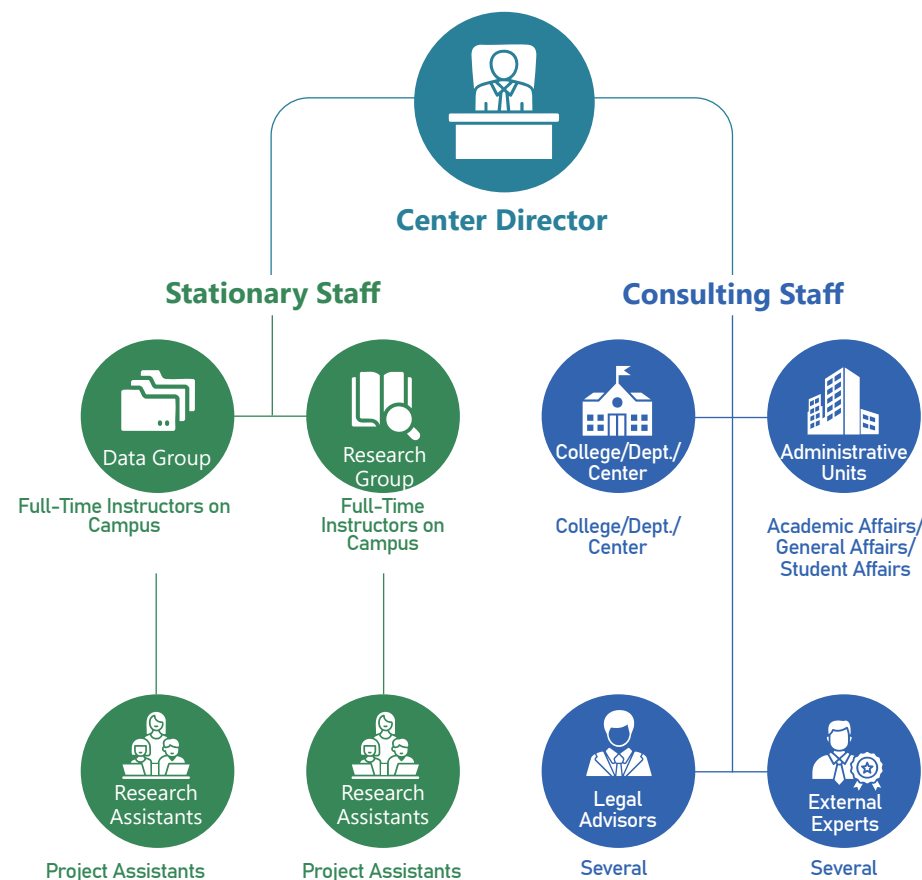

Center for Institutional Research issued a bi-monthly e-newsletter on a regular basis since July 2023, with a total of nine issues until the end of December 2024. Achieved 40%-45% reach rate, including topics such as analysis of university USR civic indicator and surveys on sophomore learning habits to promote the transparency in institutional research development. This not only fostered on/off campus communication but also encouraged social groups' participation toward the sustainable development of education.

③ Enhancement of quality management

The core was based on PDCA (Plan-Do-Check-Act) to complete in-depth analysis of three main subjects. Data-driven decision making raised suggestions for improving the core topics of institutional development. Reassessed resource allocation after the performance analysis of economically or culturally disadvantaged students. In addition, adjusted policies after studies on the reasons of student withdrawal and dropout.

④ Plans' performance evaluation, precision review and improvement

Conducted plans' performance evaluation, such as institutional research development plans, parts of Higher Education SPROUT Project, others (over NT\$20 million), and plans across fiscal years. Evaluated nine of them in 2023 and seven of them in 2024, achieving a 100% evaluation rate. Focused not only on short-term benefits but also on the creation of long-term value ensuring each resource investment contributed to institutional advancement. This ensured optimal resource allocation for University Social Responsibility Practice Project, promoting sustainable development benefits.

03. E-newsletter

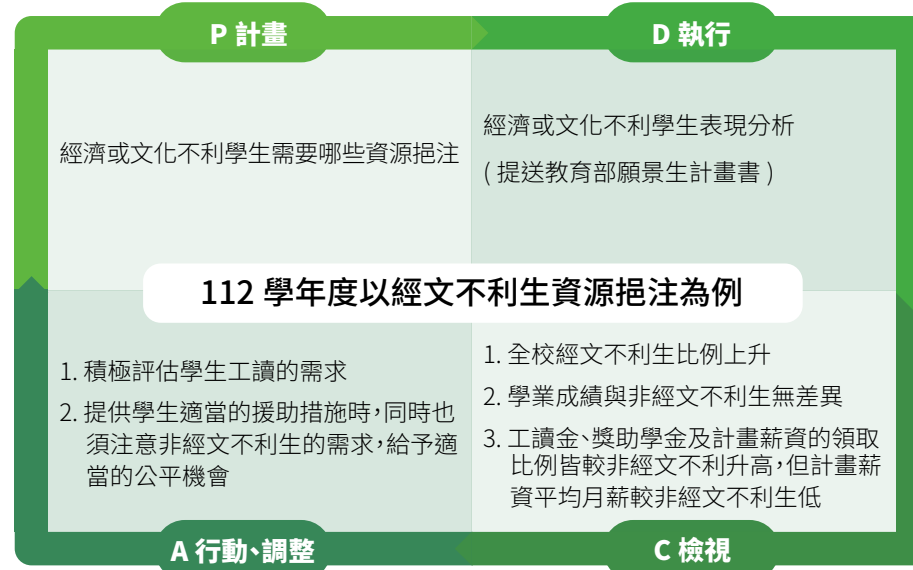

112 學年度以深入瞭解學生休、退學原因為例

修改休學申請單及退學申請單

1. 將休學原因及退學原因改為固定選項
 2. 增加「導師諮詢紀錄」欄詳實記錄
 3. 增加「休退學原因是否有改善空間」欄
- (112 年 10 月 3 日行政會議專案報告)

1. 107-110 學年度本校休學情形分析
 2. 107-111 學年度學士班轉學情形分析
- (112 年 10 月 3 日行政會議專案報告)

1. 休學：學士班比率 3.0%、原因以適應不良、學業成績不佳及志趣不合為主
2. 退學：學士班比率 3.4%、原因以因休學逾期未復學、生涯規劃為主

112 學年度以經文不利生資源挹注為例

經濟或文化不利學生需要哪些資源挹注

1. 積極評估學生工讀的需求
2. 提供學生適當的援助措施時，同時也須注意非經文不利生的需求，給予適當的公平機會

經濟或文化不利學生表現分析
(提送教育部願景生計畫書)

1. 全校經文不利生比例上升
2. 學業成績與非經文不利生無差異
3. 工讀金、獎助學金及計畫薪資的領取比例皆較非經文不利升高，但計畫薪資平均月薪較非經文不利生低

04. Examples of PDCA

Communications with stakeholders

NCNU interacted faculty staff, and students internally and organizations, groups, and individuals externally while promoting sustainable development. Multi-communications with stakeholders were offered since the impact of operations by the performance of sustainable development in this respect, not only improving the transparency of NCNU governance but also providing the opportunity of sending feedback from stakeholders for a more comprehensive campus sustainability.
